

End-Of-Life Notice – AirCard® 880U and AirCard® 881U Wireless Modems

October 21st, 2008

Sierra Wireless is communicating the End-Of-Life for the AirCard 880U and 881U.

The AirCard 880U is no longer available for sale.

While we are discontinuing production of the AirCard 880U and the AirCard 881U, we will continue to support those products which are under warranty, and to provide technical support and assistance to products no longer under warranty until October 31th, 2010.

We encourage our valued customers to ask about our currently available HSUPA USB modem which also supports UMTS, EDGE, and GPRS/GSM – our Compass 885 or Compass 888, or to inquire about our next generation HSUPA products which will be launched in Q1 2009. Please note that the AirCard 881U, the North America version of AirCard 880U, is also affected by this notice.

We would like to thank all our existing AirCard 880U and AirCard 881U customers for their support. If you have any questions, concerns, or are interested in learning how our other products can fill your needs, please contact your Account Manager, our Sales Desk, our Customer Support Team, or visit our web site at www.sierrawireless.com.

Sincerely,
SIERRA WIRELESS
Product Management Team
