

Sierra Wireless AirCard® W801 Mobile Hotspot

Streamline Business, Increase Productivity

Welcome to a new generation of wireless productivity with Sierra Wireless's AirCard® W801 Mobile Hotspot, available today from Sprint as the Overdrive™ 3G/4G Mobile Hotspot, the first wireless mobile hotspot for both 3G and 4G networks. One device and one account support up to five users and devices with high speed Internet connectivity.

CONNECT ANYWHERE

Enjoy the convenience of a Wi-Fi hotspot wherever there is mobile broadband. The AirCard W801 Hotspot is the fastest, easiest way to get road warriors online – at customer sites, hotels, or in a car.

CONNECT EVERYTHING WI-FI

With laptops, cameras, printers, and scanners all connected securely to the hotspot, mobile teams can set up an office in a controlled environment.

STREAMLINE COSTS

Avoid ad hoc Internet expenses from hotels, airports or local providers; use the AirCard W801 Hotspot to share a connection.

WORK MORE PRODUCTIVELY

Download sales reports, join video conferences or give presentations with 4G speeds that are up to ten times faster than 3G. Work flexibly with a Wi-Fi range of 150 feet. Swap files locally using microSD™ storage.

CONNECT MORE OFTEN

Connect longer and more often on the road, or in a car, with up to four hours usage and 38 hours standby battery time.

NO ONE GETS LOST

The AirCard W801 Hotspot comes with Sierra Wireless' high performance GPS, so everyone can share the convenience of GPS navigation.

EASY TO USE

The AirCard W801 Hotspot reduces IT effort with simple, interactive set up. Users just turn it on, connect to the Wi-Fi network name displayed on the LCD screen, and they are ready to surf.

DEPEND ON SIERRA WIRELESS

Sierra Wireless has specialized in wireless technologies for more than 16 years and delivers products with a proven track record of reliability. Emergency service organizations and businesses with mobile field staff depend on Sierra Wireless modems more often than any other brand of modem.

KEY BENEFITS FOR ENTERPRISE CUSTOMERS:

- Turns a wireless broadband connection into a mobile hotspot for up to five Wi-Fi enabled devices concurrently
- Connects any Wi-Fi enabled device: laptops, printers, cameras, PDAs
- Get mobile teams online faster and easier
- Simplify service plans, avoid ad hoc Internet charges, reduce costs
- Stay connected to the fastest 3G or 4G networks available
- Requires very little IT support

Sierra Wireless AirCard[®] W801 Mobile Hotspot

Technical Specifications

TECHNOLOGY

- 3G/4G Mobile Hotspot
- 1xRTT, EVDO Rev A
- WiMAX
- Wi-Fi 802.11 b/g
- GPS
- microSD™ / SDHC support (16 GB)

BANDS

- 850, 1900 MHz CDMA RevA
- 2500 MHz WiMax
- 1575 MHz GPS

ANTENNA DIVERSITY SUPPORT

- 850, 1900 MHz

OPERATING SYSTEM SUPPORT

- Windows 7 (32-bit, 64-bit),
Windows Vista[®] (32-bit, 64-bit),
Windows XP (32-bit, 64-bit)
- Mac OS X 10.4.11 or later
- Anything with Wi-Fi

ENVIRONMENTAL

- Operating Temperature: 0 to 45° Celsius
- Storage Temperature: -20 to 85° Celsius
- RoHs Compliant

STANDARDS/APPROVALS

- Wi-Fi Alliance Certification
- WiMAX Forum Certification
- CDG (From MC5728V Minicard)
- FCC
- UL
- IEEE 1725 (for Battery)

SINGLE SYSTEM REQUIREMENTS

- Wi-Fi 802.11 b/g
- System: Pentium 150 MHz or higher
- Memory: 32 MB
- Disk Space: 32 MB

DIMENSIONS

- 3.15" x 3.15" x 0.6" (8 cm x 8 cm x 1.52 cm)
- 4.47 oz (127 g)

PACKAGE CONTENTS

- Sierra Wireless AirCard[®] W801 Mobile Hotspot
- Quick Start Guide
- Terms & Conditions & Important Information
- USB to micro USB cable
- AC charger with USB port
