

Sierra Wireless Antenna – 4-in-1 Bat

Efficient element design that assures high performance and robust communication links, this BAT antenna is purposely designed for high-speed Telematics applications and can be mounted on any non-conductive surface. The isolated dual 2G/3G/4G LTE antenna elements cover 698-6000MHz and GNSS with dual-band Wi-Fi, and comes with a low loss flame retardant cable.
